HOME (BUDGET) DEPARTMENT

G.O.RT.No. 861

Dated: 29/09/2015

Read:

From the Commissioner of Police, Hyderabad City letter Rc.No. L&O/801/D1/2015, dated 24.08.2015.

ORDER:

The Commissioner of Police, Hyderabad City in the letter read above has stated that, the Government of Telangana has set out a vision to develop Hyderabad City into a Global City. In order to achieve the Government's vision, the Hyderabad City Police also needs to be upgraded simultaneously to deliver policing services at Global Standards. This will help attract Global Investments in Hyderabad City and the rest of the State of Telangana. Further, he stated that, Hyderabad City is a life line for the new State of Telangana. Emergence of Hyderabad as the Brand City for the new State of Telangana has necessitated the requirement non-contact and citizen friendly and effective enforcement in Traffic Department of Hyderabad City.

2. Further, the Commissioner of Police, Hyderabad City has stated that, the detailed requirements of Technology Interventions for the purpose of effective Crime Control and Traffic Management have been identified in consultation with all the concerned stake holders, technology experts apart from visiting and studying the existing technologies in the four Major Metropolitan Police Department namely Chennai, Bangalore, Mumbai and Delhi. The requirements of Technology for the purpose of improving Traffic Management in Hyderabad City have been worked in consultation with all the stakeholders and technology experts keeping in view the field challenges. Hence, he has proposed to bring in modern technologies for improved Citizen Centric Traffic Management and effective enforcement with a view to minimize human interface in Traffic management and enforcement situations. Further, it is proposed to bring in Integrated Traffic Management System (ITMS) project is to regulate & streamline the traffic, reduce traffic congestions and incidents and handle futuristic growth of the citizen needs. Further he stated that, the requirements are broadly classified into the following categories to meet the objectives:

- Traffic Junction Management- To regulate and streamline the traffic pass through the junction: integrate with the traffic signal system; to minimize the stopovers and queue time by synchronizing the traffic lights.
- Special Events – The main purpose is to isolate the event space from regular traffic, and ensure a smooth traffic during the event period. The road planning and execution is required in case of special events such as public events meeting or VIP movements or any public processions etc., minimize the disruptions of the traffic and diversions.
- Traffic Street Management – It is to sweep the streets by mounting the cameras on a patrol vehicle to detect any road violators, wrong parking, anti-social elements etc.,
- Traffic Violation and Detection System – The traffic violation is another critical function where the road users violating the rules of the road should be identified and appropriate action has been taken.
- Intelligent Traffic Routing /Regulation- The main objective is to intelligently regulate and route the traffic throughout the city based on the spatial information.
- Variable Message Boards (VMB) - The VMB is key element to disseminate the useful information such as traffic congestions, traffic disruptions, traffic incidents, road conditions, road diversions etc.,
- City-Wide Public Address System (PAS) –It is a useful communication tools in large and crowded establishments, public transport stops, junctions, busy roads, mall etc., to effectively disseminated from audio speakers at strategic locations to educate awareness to the citizens.
- Traffic Business Intelligence –It is to analyze on various parameters such as user behavior, traffic pattern, incident prone area analyses, road and junction design analysis, repeat violators analysis.

P.T.O.,
